

## 24V 20A Battery charger (TYC-24V-20A)

### 24V 20A Battery charger (TYC-24V-20A)

#### Features:

- \* Fully Automatic Charging
- \* Switch Mode Technology
- \* 3-Stage Charging System
  - ▶ 1st Stage: Bulk
  - ▶ 2nd Stage: Absorption
  - ▶ 3rd Stage: Float
- \* Reverse Polarity Protection
- \* Short Circuit Protection
- \* Over Temperature Protection
- \* Battery Type Selector
- \* Led Visual Display
- \* High Efficiency

\* Temperature Controlled Variable Speed Fan

#### Specifications:

DC Input voltage	24V
Rated Charge Current	20A
Absorption Charge Voltage (DC)	29~29.6 V
Float Charge Voltage (DC)	27V~27.6 V
Input Voltage (AC)	185~265 V
Frequency	47~63 HZ

#### Packing Details:

Inner box Dimension (CM)	33*15*5.2
Unit Weight	2.5KGS
